Notes:

* Westchester includes both Pleasantville and White Plains Campus.

** A Cohort is defined as a group of Full-time, First-time, matriculated, non-transfer bachelor degree seeking students (includes CAP)

*** The students in each cohort are tracked by above restraints and SSN/ID in their entry term; therefore, if a student is enrolled in the University in a subsequent term they are counted towards the University's persistence rate.

⁴ eP Users within the cohort are counted if they uploaded at least one artifact within the first academic year and had at least one artifact total by May 2013.

⁷ eP Superusers within the cohort are counted if they uploaded artifacts within the first academic year and had 11 or more artifacts total by May 2013.
